**Geography Time!**

**Topic: Volcanoes**

1 Listen, point, and repeat. 🎧

volcano   inside   hole   erupt   lava

2 Listen and read. 🎧 **Amazing Volcanoes**

Volcanoes are very big and very tall. There is a hole in the volcano. There is lava inside the hole. It is red and yellow, and it is very, very hot!

Volcanoes can erupt. The lava comes out and goes down the volcano. It is beautiful, but very dangerous.

This is the biggest volcano in the world. It's in Hawaii, and its name is Mauna Loa. Some volcanoes don't erupt, but Mauna Loa erupts a lot.

There are also volcanoes under the ocean. They erupt all the time, but we can't see them!
